tiki_p_live_support_admin

Admin live support system

tiki_p_live_support

Can use live support system

Calendar

tiki_p_view_calendar

Can browse the calendar

tiki_p_change_events

Can change events in the calendar

tiki_p_add_events

Can add events in the calendar

tiki_p_admin_calendar

Can create/admin calendars

Permissions for individual users

What if you want to give a specific user some permissions? Just create an artificial group, assign the user to that group, and give the group the permissions that you need.

Individual permissions (per section, object)

As we explained you can set up individual permissions for some Tiki objects. When assigning individual permissions the permissions you can assign are the same as you have in the global permissions screen. Once an object has individual permissions only the individual permissions apply to the object, and not the global permissions. This way, the registered group of users may have the permissions to view, post and reply in all forums in general, but a single forum may have some more restrictive permissions specifically assigned to it (for instance, read, but no post nor reply).

The following objects accept individual permissions:

- Wiki pages
- Image galleries
- File galleries
- Forums
- Weblogs
- Newsletters
- Surveys
- Quizzes
- Trackers

Customising the permissions list (re-ordering it) for power users.

Since Tiki19 it is possible to customise and re-order the list of the permissions displayed under Setting => Permissions (tiki-objectpermissions.php). Super user can edit a yaml file located at : tiki-objectpermissions_order.yml.
