

Tiki22

Tiki 22.0 was released in November 2020

It is a Standard Term Support (STS) version and will be supported until Tiki 23.1 is released as per the Tiki lifecycle policy.

As a post-LTS version, this one typically has more changes than usual. However, as of 2019-11-26, there are no major changes like the move from Bootstrap 3 to Bootstrap 4. 🚩

Requirements are now PHP 7.4 vs 7.2 in Tiki21.
