

## User Notepad

This page needs new [screenshots](#)

This application has been enhanced and a re-write is needed for 1.10

This feature is used to let users write notes, save them and use them when they want. The user notepad main screen list the user notes.

## Enabling the Notepad feature

To enable the User Notepad, follow these steps: Go to **Control Panels > User Settings** and then in the **User Features** tab, enable the **User Notepad** feature.

The screenshot shows the 'User Settings' page with the 'User Features' tab selected. Under 'User Account Features', the 'User notepad' option is checked, indicated by a red circle. Other options like 'User wizard', 'User tasks', 'My bookmarks', 'User favorites', 'User contacts', and 'Menu user levels' are unchecked. An 'Apply' button is visible in the top right corner.

MyNote

"Young writers often suppose that style is a garnish for the meat of prose, a sauce by which a dull dish is made palatable. Style has no such separate entity; it is nondetachable, unfilterable. The beginner should approach style warily, realizing that it is himself he is approaching, no other; and he should begin by turning resolutely away from all devices that are popularly believed to indicate style--all mannerisms, tricks, adornments. The approach to style is by way of plainness, simplicity, orderliness, sincerity."

--Strunk y White, "Los elementos del estilo"

"And thus an American textbook, typical required reading for 10th-grade English students, unknowingly extols some (virtues of Wabisabi" --scummings
